

IBRA International Bone
Research Association

Program

IBRA Session Educational Day

On the occasion of the XXIV FESSH / 14th IFESSH Congress
June 17 – 21, 2019, Berlin, Germany

Operative treatment of distal radius fractures – main principles

June 17, 2019
Berlin, Germany

Chairmen:
Prim. Dr. Wolfgang Hintringer, Vienna, Austria
Prof. Dr. Hermann Krimmer, Ravensburg, Germany

About IBRA

IBRA is a financially independent, internationally oriented non-profit organization, for specialized clinicians and research scientists. IBRA's core activity is the future-oriented advancement of bone-tissue research and management focusing particularly on:

- Bone biology, including osteointegration, bone generation and soft tissue reaction
- Maxillofacial and orthopaedic rehabilitation
- Materials research including hardware development
- Biomechanics
- Tissue engineering
- Surgical procedures & clinical management

IBRA encourages the development of innovative solutions in a friendly, loyal atmosphere. Future-oriented open-mindedness and international acceptance form the basis for first-rate assistance in realizing modern research projects and promoting individual careers. As an international forum reaching across geographic and cultural borders, IBRA offers an up-to-date network for the exchange of experience and knowledge in applied bone and tissue research.

History

IBRA was founded in Zurich, Switzerland on September 25, 2004 at the initiative of eighteen forward-looking clinicians. Its primary aims are the exchange of professional knowledge, promotion of new scientific developments, engineering of the musculoskeletal system, coordinated multi-centre research and highly specialized advanced training.

Research Support

IBRA offers financial support for research projects dealing with bone biology and the improvement or development of internal fixation devices for maxillofacial and limbs surgery. With the emphasis on innovation and suitability for practical application, 95% of the research budget goes towards applied research and clinical studies and 5% towards basic research.

Education

IBRA's education area offers clinicians special courses on the application of specific methods of treatment. IBRA's particular concern is to train tomorrow's highly qualified research scientists. IBRA enhances its members' qualifications through a scholarship program.

June 17, 2019

Operative treatment of distal radius fractures – main principles

Location: as per official congress program

Time: 11:00 – 12:30h

Chairmen: Prim. Dr. Wolfgang Hintringer, Vienna, Austria
Prof. Dr. Hermann Krimmer, Ravensburg, Germany

11:00 – 11:15	Treatment based classification (incl. 5 min discussion)	<i>Prim. Dr. Wolfgang Hintringer, Vienna, AT</i>
11:15 – 11:30	Fragment specific plate selection (incl. 5 min discussion)	<i>Prof. Dr. Martin Leixnering AUVA Vienna, AT</i>
11:30 – 11:45	Key points of the palmar and dorsal approach (incl. 5 min discussion)	<i>Prof. Dr. Rainer Meffert Würzburg, DE</i>
11:45 – 12:00	Tips and tricks to avoid complications (incl. 5 min discussion)	<i>Prof. Dr. Hermann Krimmer Ravensburg, DE</i>
12:00 – 12:15	Desicion making in case of failure (incl. 5 min discussion)	<i>OA Dr. Christoph Pezzeri AUVA Vienna, AT</i>
12:15 – 12:30	Case discussion	<i>All</i>
